

The K-LOVE radio stations serving the areas in Monterey and San Jose (CA), provide excellent programming for the whole family. My two young daughters, my wife and I truly enjoy the music that is being played throughout the day. My church community also enjoys the music of K-LOVE.

If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, my family, my friends and I would be devastated. As it is, some of today's music promotes sex and violence, and to me this is not an option. The current service provided by K-LOVE is in the public interest. The music is positive and encouraging. I've been listening to radio for 40 years, and I haven't heard anything like K-LOVE. Please leave K-LOVE where it is.

Thank you,

Carlos Lopez
